ABOUT AIESEC

AIESEC is a global, independent, non-partisan, not-for-profit youth-run organization that provides young people with leadership development through cross-cultural internships and volunteer exchange experiences across the globe in collaboration with like-minded partners.

It all started after the

SECOND WORLD WAR

WHEN A GROUP OF

young people

DETERMINED THAT

cross cultural understanding

WAS ESSENTIAL TO PREVENT SIMILAR CONFLICTS AND FOSTER PEACE IN THE WORLD.

WHY

WE STRIVE TO ACHIEVE

peace & fulfilment

OF HUMANKIND'S

potential.

WHAT

we enable

YOUNG PEOPLE

TO DEVELOP THEIR LEADERSHIP THROUGH LEARNING FROM

practical experiences

in challenging

environments.

WE DO THIS THROUGH

cross cultural exchange

AND BY CREATING THESE OPPORTUNITIES ALONGSIDE LIKE-MINDED PARTNERS

SUMMARY
Computer engineering student specializing in mobile development, with hands-on experience in real-world projects and hackathons. Passionate about building reliable, scalable, and user-centered applications, I strive to bridge the gap between technical innovation and real-life impact. I believe that mastering technology is only the starting point — delivering practical solutions that enhance user experience is what truly matters.
My background has taught me to adapt quickly, perform under pressure, and transform ideas into fully functional, impactful systems. I'm driven by continuous learning, collaboration, and a strong commitment to creating technology that makes a measurable difference.

Profile
I completed my bachelor's degree in mechanical engineering at Eskişehir Osmangazi University in 2025. During my education, I focused on production engineering, manufacturing technologies, and design-oriented applications. Through internships at prominent companies such as Haier Europe, Türasaş, and Yemtar, I gained hands-on experience in assembly lines, machining, industrial equipment technologies, quality control, and lean production principles. I have performed 3D modeling and technical drawing with SolidWorks, time studies and data analysis with Excel VBA, and engineering simulations with Ansys. I have actively participated in production accuracy, tolerance optimization, and surface quality applications on CNC lathes, vertical machining centers, and conventional machine tools. I have strengthened my problem-solving, teamwork, and continuous improvement skills in real production environments. My goal is to effectively utilize my engineering knowledge and skills to enhance efficiency and quality in production processes.
